Turbo Swim

@turbowp

Welcome Water Polo and Swimming Enthusiast,

Thank you for taking the time to browse through our KAP7 and TURBO Catalog. We are proud to offer you the best water polo products on the market, and excited for you to experience the quality and ingenuity that we at KAP7 and TURBO have put into our products. KAP7 is the world leader in water polo products, built by water polo players, for water polo players. TURBO is the leader in elite quality dye sublimated swimming and water polo suits. This year, TURBO and KAP7 celebrate 10 years of partnership, developing their best in class products.

The KAP7 and TURBO Journey:

TURBO was founded in 1959 in Barcelona, Spain. TURBO was the first to dye sublimated swim suits in the swimming and water polo world (when color is embedded in, rather than printed on fabric). The quality of TURBO suits is known world-wide to be the best for training and competition at the elite level.

KAP7 was founded in 2004 by Swimming and Water Polo Olympians Bradley Schumacher and Wolf Wigo. KAP7 is the first water polo products company founded by water polo players. Consequently we are WATER POLO focused.

SWIM.WORLDWIDE.

We began in the pool at a grassroots level. In 1999 Bradley and Wolf were running clinics around the country and saw the need for quality water polo products that were built by people who truly understood and appreciated the sport.

In our Olympic playing days we would always return from tours of Europe excited to have a few new Turbo Dye sublimated suits, knowing they were superior to any suit sold in the US. This is how we knew TURBO was the brand we would pursue to partner with KAP7. Assured that their focus on world class quality aligned with ours, we partnered with TURBO in 2007.

We have strategically positioned KAP7 to focus on water polo because we love the sport and are grateful for the many opportunities it has provided us, both personally and professionally. As former Olympic athletes we are excited to remain involved in the sport that we are passionate about.

The Turbo and KAP7 partnership has allowed us to support the development of water polo through direct sponsorship. We invest capital and product at all levels across the globe to foster the growth of Water Polo. We sponsor teams at the Club, High School and University levels. We are also a proud sponsor of the US Olympic Water Polo

Teams, the Spanish Olympic Water Polo Team and the Croatian Olympic Water Polo Team, to name a few. We are motivated to give back to the sport that gave us so much. It is an ongoing mission of KAP7 and TURBO to help grow the sport the Worldwide. KAP7 and TURBO directly supports 100+ water polo organizations around the world. A portion of every sale we generate goes back to the sport. We are hopeful you take this into consideration when you are making your purchasing decisions. Every time you shop with KAP7 and TURBO you support organizations such as LEN, USA Water Polo, American Water Polo, your State or HS section, the NCAA, and numerous Federations across the globe. You are also supporting new product development, elite level water polo clinics, and free instructional Youtube videos, drills and tips. Your support will allow us to introduce this wonderful sport to more kids of all ages.

Water Polo and Swimming is and always will be a part of who we are. We know we can positively impact the development of all aquatic sports world wide. We sincerely appreciate your support of TURBO and KAP7. We could not be doing the great work we do every day without you.

Keep Swimming!
